WHAT YOUR COLLEAGUES & COMPETITION THOUGHT

“You did great in organizing and growing the conference. I look forward to the next one.”

“The event was very well organized. We had some big profile like Google, Ericsson and some of the big guys here and it's been great.”

“Lot of great speakers, I learned a lot that I didn't know. You get to experience the actual atmosphere and the enthusiasm about it.”

“We've met a lot of interesting people from various service provider organizations that are looking to understand how they can support WebRTC.”

“We had people from Singapore, people from Spain, Venezuela, owners of tech companies in Mexico, local people from AT&T Atlanta, so it's from all over the world, it's diverse.”

“I think I've probably got too many leads or serious business opportunities to even actually even follow-up on, so I've got to have a serious think and discussion about how we address this space properly now.”

“The next event might be the biggest evolution yet of WebRTC.”
