

Solutions Built Around You

XO Communications is one of the nation's largest communications service providers focused exclusively on businesses, government, domestic and international telecommunications carriers, cable companies, content providers and mobile wireless companies.

With Solutions Built Around You, XO Communications offers customers the right network, the right solutions and an unrivalled focus on delivering the best customer experience.

At XO Communications, we build **solutions** around your needs using our comprehensive **network** coverage, expertise in IP solutions, and unparalleled service — all to ensure your exceptional customer **experience**.

solutions

Solutions Built Around You

We offer a broad range of solutions that help maximize performance, increase productivity, reduce operational costs and simplify network management. From industry-leading business VoIP solutions and powerful application-aware Wide Area Network solutions – to high-capacity network transport and wholesale voice and data solutions for carriers, cable companies and mobile wireless service providers – XO Communications offers solutions built around each customer's unique requirements that scale as needed.

network

The Right Network

XO Communications operates a nationwide multi-terabit network that delivers industry-leading IP and network solutions at the fastest speeds available today. We've built our state-of-the-art network from the ground up with the industry's most advanced IP and optical technology available. Our unrivalled network assets include nationwide IP and transport networks, metro networks, broadband wireless access and connectivity to global service locations for door-to-door delivery of customer traffic nationwide and around the world.

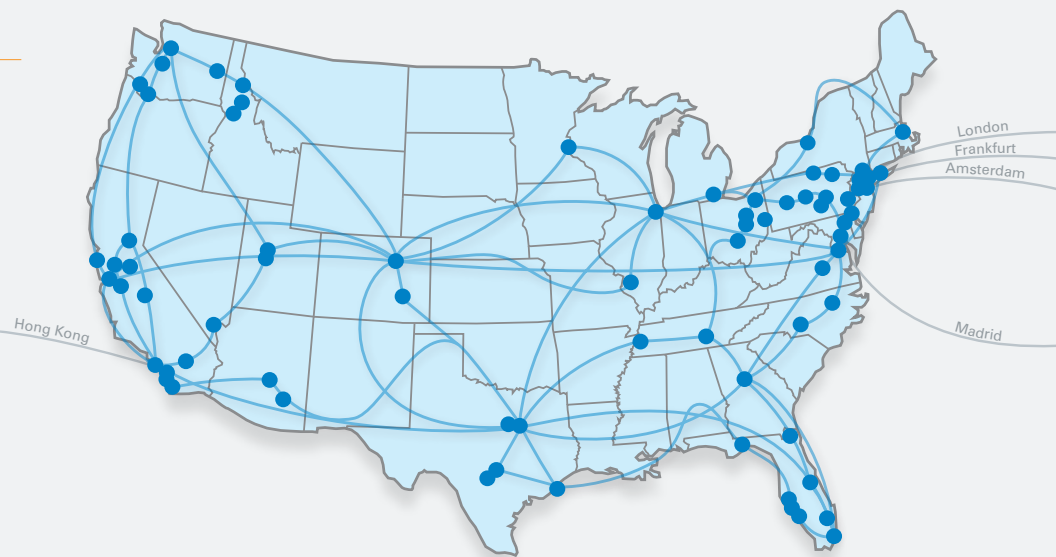

experience

Exceptional Customer Experience

The XO Communications customer experience is unique because our network processes, organization and solutions are built around you. We are dedicated to an uncompromising commitment to deliver the best experience with each and every customer interaction. From needs assessment to personalized service and customized solutions, XO Communications understands and strives to exceed your expectations. And through our online customer portal, the XO® Business Center, you have the power to manage your account and services on your own terms.

Network Assets

- Approximately one million miles of metro fiber
- 19,000-route mile nationwide inter-city fiber network
- Nearly 1,000 central office collocations
- More than 3,000 fiber-fed buildings on-net
- More than 50 collocation facilities nationwide
- Fully peered Tier 1 IP network with more than 100 private and public peering relationships
- 28-31 Ghz broadband wireless spectrum in 75 markets
- More than 20 billion VoIP minutes per year

We serve customers through three primary business units:

XO® Business Services provides advanced VoIP, Internet, managed network, and hosted IT solutions for small and medium sized businesses, enterprises and government agencies.

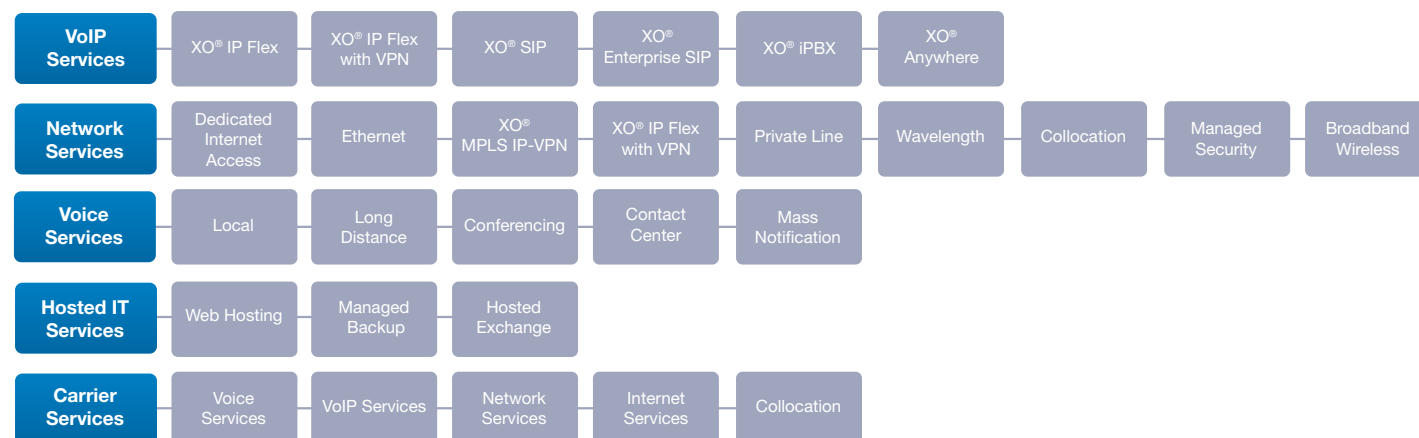

XO® Carrier Services delivers high-bandwidth IP and inter-city network transport services for domestic and international carriers, service providers, cable companies and mobile wireless companies.

XO® Small Business Services offers a range of Software-as-a-Service applications to help emerging companies manage and expand their businesses. These services include hosted email and messaging, web site and applications hosting, domain management, and professional services related to these services.

Customers

Exclusively serves businesses, government, domestic and international telecommunications carriers, cable companies and mobile wireless service providers

- More than 90,000 customers
- More than 50% of the Fortune 500
- Federal, state and local governments and agencies
- State and local education institutions
- 17 of the world's 20 largest telecommunications companies
- 8 of top 10 mobile wireless companies
- 9 of top 10 cable companies
- The three most popular Internet search engines

Financial Performance

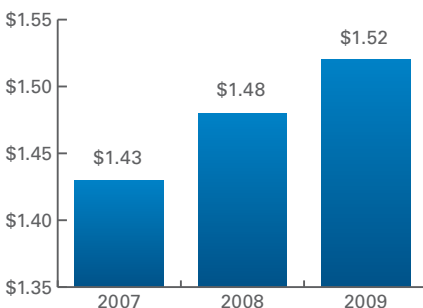

In 2009, XO Communications achieved year-over-year revenue growth, demonstrating the company's growth in strategic services such as data, IP and wholesale high-capacity network services. Total revenue for 2009 increased 3% to \$1.52 billion from \$1.48 billion in 2008. Revenue from broadband data and IP services grew 19% in 2009 compared to 2008 – the direct result of the company's strategic investments in new data and IP services and increased network capacity.

As of December 31, 2009, XO Communications' parent company, XO Holdings, Inc., had no senior long term debt and had \$363 million in cash.
