Hello & Welcome to Miami 2014!

Thank you again for making ITEXPO the premier business technology conference.

ITEXPO is the world's largest and longest-running B2B communications and technology trade show. This iteration of the conference in Miami features educational tracks that cover the issues and opportunities that users and providers of today's sophisticated technology solutions face.

Throughout the four-day event, hundreds of industry thought leaders and true practitioners will share their insights on WebRTC, IoT, big data, BYOD, virtualization, customer experience, enterprise & service provider solutions and more! You can attend a variety of educational workshops, engage with amazing speakers, and participate in informative sessions for communications technology users, experts and suppliers.

There are lots of exciting events collocated with this edition of :

- Asterisk World
- Case Study U Conference
- Cloud4SMB Expo
- ChannelVision (CVx) Expo
- LatinComm Conference & Expo
- M2M Evolution Conference
- (NEW) Mobile Payments Conference
- (NEW) SmartVoice Conference
- Super Wi-Fi & Shared Spectrum Summit

As well as free training & workshops:

- (NEW) 888VoIP's Complete VoIP Solution Workshop
- Asterisk 1-2-3: The Essential 1-Day Asterisk Training Course
- (NEW) Enterprise WebRTC Pavilion
- (NEW) Grandstream UCM6100 series IP PBX Training Workshop
- Ingate's SIP Trunking, UC Communications & WebRTC Seminars
- MegaPath's MPLS University
- Sangoma Lync Express & Sangoma Session Border Controllers Workshops
- SDN Precon Workshop
- Telecom Reseller Week

Thank you for committing your time and resources to join us, and are confident you will find the experience extremely worthwhile.

There are many activities taking place over the next few days. Please take a moment to review and use this directory as a guide to make sure you don't miss what's most important to you. For times and locations, please seen the Agenda-At-A-Glance on pages 12-16.

Once again, I'm very pleased that you're here to experience and contribute. As always, please contact myself or let a member of the TMC team know what you think of the event. You'll see us around all week and you can also stop by the Registration Desk to give us your valued feedback. Enjoy!

Rich Tehrani
CEO and Conference Chairman

Switchvox®.

The best Unified Communications system for your business.

Access the powerful UC features of Switchvox in the cloud

Switchvox Cloud Hosted PBX

Enjoy peace of mind with fast deployment, low CAPEX, and no maintenance. Grow as you go: easily migrate between Switchvox Cloud and Switchvox premises business phone system.

Switchvox Cloud is a full-featured, affordably priced UC cloud solution.

In addition to receiving reliable, high-quality VoIP phone service for all employees, you also have access to mobility, call queues, voicemail, unified messaging, presence, chat, IVRs, integration with Salesforce CRM and SugarCRM, monitoring, reporting, on-demand recording, and more. All of the features are included with no additional licensing fees required, making Switchvox Cloud the best value for your complete hosted UC solution.

It's time.

Make an informed move to the Cloud.

It's time to stop paying for onsite resources that you can no longer use efficiently. The adoption of cloud-based services is growing rapidly among businesses that want to reduce IT complexity, support a scalable infrastructure, and lower costs. Cloud-based services also provide many employee benefits, including improved productivity, mobility and collaboration.

Not sure where to start?

MegaPath's Cloud Hosting Capacity Assessment service helps companies right-size their server infrastructure for the optimal balance of cost and performance.

Now available at no cost or obligation, the assessment service consists of a simple, one-week evaluation that helps businesses measure the current workload capacity of their data center and desktop infrastructure, and monitor total resource usage.

For more information on MegaPath's Cloud services – including Cloud Hosting, Hosted Voice, Data Backup, Hosted Exchange and Hosted SharePoint – contact us today.

Take the Guesswork Out of Your Cloud Strategy.

Request Your Free Cloud Hosting Capacity Assessment Today.

Visit Us at **Booth 906**

Unified Communications Clouding Your Mind?

Taqua Can Clarify Your Alternatives

There are many options when it comes to deploying Unified Communications – cloud, premise-based, or hybrid. No matter the route you choose, Taqua's UC solution set will ensure your convergence investment has clarity and longevity.

Taqua integrates and implements our technology into cost effective, future-proofed voice networks using best-in-class solutions from the world's leading vendors. We're the industry's best system integrator with the most installations of BroadSoft and Oracle/Acme. Our UC, voice and wireless solutions are open standards based, carrier grade and completely scalable.

For a clear picture of UC and the alternatives, stop by **Taqua's Booth #506**. Additional information can be obtained by calling **+1.972.692.1800**, by email at **simplify@taqua.com**, or by browsing the website at **www.taqua.com**.

DIGITALK

The Complete Solution for **Service Providers** in the Cloud

What should a **service provider** look for in a Cloud application?

- Unlimited scalability and capacity
- Carrier neutrality and independence
- Wholesale and retail services
- A market leading solution from a trusted vendor
- Located in key Miami hub
- Comprehensive support directly from the vendor

How can a **service provider** benefit from a Cloud application?

- Lower risk and cost
- No infrastructure to worry about
- Only pay for usage
- Simplified business administration
- Quick to adopt and fast to market
- Freedom to test new ventures and routes

DIGITALK Cloud answers these questions, enabling new business opportunities for **wholesale** and **retail service providers**.

Visit **Booth 910** to learn more about these exciting opportunities.

SPECIAL OFFER for ITEXPO

As a result of DIGITALK's recent capacity expansion in Miami, we are extending an offer to ITEXPO visitors: DIGITALK will support new Carrier Cloud contracts with **unlimited minutes for a fixed $1000 (USD) monthly fee** until March 31st 2014.

* Sessions, times and speakers are subject to change without notice.

Featured Presenter: Gary Audin

Audin has more than 40 years of computer, communications and security consulting and implementation experience. He has planned, designed, specified, implemented, and operated data, LAN, WAN and telephone networks.

Sponsored By:

TelecomReseller UCNetworks
The Voice of Unified Communications and Collaboration

Successful SIP Trunking

Presented by: Gary Audin, Telecom Reseller; Steve Johnson, Ingate

If there is any theme in IT today, it is a flat or reduced the IT budget. One budget candidate is using SIP trunking and retiring the old T1 and PRI carrier connections. SIP trunking can in most cases produce enough savings to warrant the change. The proliferation of SIP trunking makes the bandwidth calculations for those SIP trunks an issue that the IT organization must resolve. Too much capacity and money is wasted. Too little capacity and calls will be blocked, callers will abandon the call, the enterprise agents will be less productive, and the enterprise's reputation for service may be harmed.

Internet of Things: Business Model Impact and Network Considerations

Presented by: Gary Audin

As the devices that will be Internet capable grows, so does the impact of all of these devices, an estimated 6 billion+, affect most manufacturers and service providers. The manufacturers will change their business model to one where services may be more profitable that the products they produce. Service providers, both wired and wireless, will have to accept that each Internet location may have dozens of Internet addresses that produce only modest amounts of traffic but will be continuously live. Wireless providers may have to add new charge structures so that low traffic devices can be always on. This session is designed to anticipate the changes that the Internet of Things will produce.

WebRTC: Technology and Applications

Presented by: Gary Audin

WebRTC is an API first introduced as open source code by Google in 2011. The goal for WebRTC is to build a standard-based real time media engine implemented in all of the available browsers. A browser with WebRTC and a web services application can direct the browser to establish a real time voice or video Real Time Protocol (RTP) connection to another WebRTC device or to a WebRTC media server. The applications for WebRTC are wide ranging from customer service to health care to emergency notifications.

Lync Migration

Presented by: Gary Audin

Many enterprises have or are looking to implement Microsoft Lync. Or the enterprise may be upgrading from Office Communications Server (OCS) to Lync. No matter the path taken, Lync has its promoters and detractors who blog on the ease and difficulties of implementing a Lync system, software and services. Connecting Microsoft's Lync to SIP trunks and SIP qualified devices is a matter of interoperability. Both Microsoft and the SIP vendors/providers need to participate in a thorough structured test to validate their interoperability.

Asterisk 1-2-3: The Essential 1-Day Asterisk Training Course

All Are Welcome / Free for All Attendees

Hosted By

digium®
The Asterisk Company

The Asterisk 123 Seminar provides a well rounded and informative introduction to the Asterisk Project. All are Welcome! Whether you are managing a team deploying an Asterisk implementation, evaluating potential replacements for a legacy telephony solution that's on its last leg, or just a general Asterisk "newbie" excited to learn what Asterisk is capable of, then this talk has something to offer you. This all-day seminar is broken into multiple sessions, beginning with background information such as the history of Asterisk, followed by methods of installing Asterisk and examples of fundamental configuration for call flow and features such as Voicemail and IVR. Lecture will immediately be followed by a Question and Answer Session.

Room B116

Asterisk 1-2-3

Session 1

- What is Asterisk?
- Who created it, and why?
- What can Asterisk do?
- How does Asterisk get deployed?

Session 2

- Three ways of installing Asterisk
- Compiling Asterisk from source code
- Getting around on the Asterisk command-line interface
- Starting and stopping Asterisk
  Introduction to the Asterisk dialplan
- A simple Hello World dialplan

Session 3

- Connecting SIP phones to Asterisk
- Dialing phones from the dialplan
- Dialplan application
- Voicemail
- Dial-by-name directories
- Auto-attendands, IVRs, and Voice Menus
- Recording audio prompts
- Audio conferencing

Session 4

- Adding logic to the system
- Variables
- Expressions
- Conditional Branching
- Question and Answer session

3CX (Booth: 700)
www.3cx.com
P/F: 404-973-2973 / 404-973-2973

Move to 3CX Phone System - an open standard Windows-based IP PBX that provides superior features and flexibility at a far lower cost. Lower call costs and globalize your business by making use of worldwide VoIP providers and bridging your offices for free inter-office calls. • Increase mobility by allowing employees to take their extension with them wherever they go. • Improve productivity with office-wide presence and desktop call control. • Eliminate expensive telecom consultants with an easy-to-use web-based PBX console

4NetOnline.com (Booth: 1021)
www.4netonline.com
P/F: 305-712-6680 / 305-599-1125

Distributor with focus on Ethernet wireless products like Access points, routers, antennas, for point-to-point and point-multipoint connections and CCTV products like Cameras (IP and analog), DVRs, NVRs and accessories for surveillance.

888VoIP (Booth: 700, A101)
www.888voip.com
P/F: 716-714-8018 / 866-824-0836

888VoIP is an industry-leading VoIP hardware distributor. IP Telephony Value-added Resellers, Internet Telephony Service Providers, IT and Data Networking Professionals, and VoIP Integrators rely on 888VoIP's knowledgeable and professional team to be their trusted advisors. Manufacturers count on 888VoIP's experienced staff and network of certified reseller partners to expertly handle product distribution, technical support, custom provisioning, and solutions integration.

911 Enable (Booth: 611)
www1.911enable.com
P/F: 877-862-2835 / 514-745-8616

Based out of Montreal, Connexon Telecom has been providing E911 solutions since 2005. The company was born after identifying a growing need for E911 solutions for organizations using VoIP and UC systems. As businesses upgrade their voice networks they unknowingly face challenges that might delay in getting employees the help they need in an emergency. The company's Emergency Gateway and Emergency Routing Service allow organizations to track IP phones, properly route E911 calls and alert on-site security personnel of emergencies. Certified with key technology partners like Avaya, Cisco and Microsoft, Connexon Telecom serves clients of all sizes and verticals, in the US and Canada, and is dedicated to building solutions that help keep users safe.

abp Technologies (Booth: 314)
www.abptech.com
P/F: 972-831-1600 / 972-831-1416

ABP Technology is a Dallas, TX-based, value-added distributor of IP Communications products and services marketed throughout North America, Latin America and the Caribbean. The ABP portfolio includes IP phones and IP-PBXs, IP peripherals, Mobility solutions with WiFi, DECT and Dual mode technology, engineering consultation services, technical support, IP training, provisioning and configuration services. ABP sells and supports proven interoperable IP products based on Open Standards offering connectivity, security and mobility at optimal TCO with ease of deployment and high functionality. ABP's clients include channel partners, specialized VARs, Service Providers, government entities and educational institutions.

ADTRAN (Booth: 300)
www.adtran.com
P: 1-800-9ADTRAN

ADTRAN reinvents the network delivering innovative, reliable communications solutions and industry-leading customer service that enables our customers to evolve, change and grow. Products showcased at IT Expo will include: Virtual Wireless LAN, Unified Communications, IP PBX and Converged IP Telephony systems, business-class SIP phones, IP business gateways, managed PoE and Gigabit switches, access routers, and Wireless Access Points.

ASC (Booth: 815)
www.ascnet.com
P/F: 866-299-2087 / 613-599-5311

ASC provides tailored, customer-specific solutions for the secure creation, approval, storage and monitoring of contracts, documents, forms, quotes and other document types and matters. Solutions are delivered in the Cloud as Software as a Service (SaaS) or on premise. ASC helps organizations reduce costs, maximize revenues and minimize compliance risks.

AireSpring (Booth: 507)
www.airespring.com
P/F: 800-825-1055 / 888-899-3021

AireSpring is an award-winning, privately held, debt-free communications company offering a broad range of innovative services at competitive prices to businesses nationwide. AireSpring offers market-leading cloud hosted PBX, long-distance, local, data, MPLS and next-generation SIP trunking solutions that provide companies with tailored services that are powerful and cost effective.

AirWatch (Booth: 1020)
www.air-watch.com
P/F: 404-478-7500 / 404-478-7530

AirWatch is the largest Enterprise Mobility Management provider in the world with over 1,500 employees globally. More than 8,000 companies trust AirWatch to secure and manage their mobile enterprise. With market-leading solutions for mobile security, device, email, application and content management, we simplify enterprise mobility.

Akuvox (Booth: 323)
www.akuvox.com
P/F: +8618650111124 / +865922133061

Akuvox develops and delivers innovative VoIP phones and IP communications solutions for businesses.We are the global provider of VoIP Phones, next-generation business collaboration and communications solutions, and related services to companies of all sizes around the world. Akuvox was founded by Dr. Jack Zhuang. Dr. Zhuang has worked in the IP communication industry for more than 25 years, and was also the former Chief Architect of Cisco/Webex and CTO of Yealink. Akuvox is backed by Xingtel Group, which is the telecommunication industry leader supplier. Since Akuvox has the core technology and is on the way to being the industry's leading supplier of VoIP Phones and IP communication solutions.

Algo Communication Solutions (Booth: 807)
www.algosolutions.com
P/F: 604-454-3790 / 604-430-8943

Algo SIP endpoints simplify paging, loud ringing, visual alerting, notification, and security intercom for premise or cloud. Ease migration from legacy phone systems to a SIP environment with these VoIP solutions that turn obstacles into opportunities. Visit the Algo booth to demo the latest product solutions.

Carlson Wireless, the global leader in TV white space technology, has developed the FCC-Certified RuralConnect™. Worldwide white space trials are using this product to provide broadband data to remote areas using UHF TV channels. This device is capable of proving internet connectivity to underserved communities for long-distant, non-line-of-site, hard-to-reach areas.

Cbeyond (Booth: 932 CVx Pavilion)
www.cbeyond.com
P/F: 678-424-2400 / 678-424-2500

Cbeyond, Inc. (Nasdaq: CBEY), a cloud and communications services provider, is the technology ally for small and mid-sized business. Our private, proactively-managed IP network connects customers to voice, data and enterprise applications hosted in our award-winning cloud data centers. Since 1999, Cbeyond has served the unmet needs of businesses through technology and service innovation. We were the first company to build an all-IP network specifically for small businesses and among the few to offer consultative sales and service professionals onsite. Today, our expanded portfolio helps customers reduce the burden of outlaying capital and manpower to manage infrastructure. Creating an exceptional customer experience is in our DNA. For more information on Cbeyond, visit www.cbeyond.com and follow Cbeyond on Twitter: www.twitter.com/cbeyond.

Centuric (Booth: 1022)
www.centuric.com
P/F: 954-691-1651 / 954-691-1650

Our commitment is to deliver secure, automated, efficient, scalable, and state-of-the-art network resources to our customers while keeping customer service and user experience core to our culture! Centuric began operations in 2001 and we team with organizations of all sizes from initial strategic consultations and project planning through deployment of solutions to ongoing maintenance, hosting and support. With multiple Tier 4 Datacenters and a state of the art Network Operation Center (NOC), Centuric provides a secure environment for clients seeking a hosted solution rather than building their own physical infrastructure and hiring technical specialists. Our team of technology professionals can provide: Managed Network Services; Helpdesk Solutions; Desktop as a Service; VoIP as a Service; Backup & Disaster Recovery Solution; Cloud Consultation Services; Cloud Formation; and Migration Service.

Charter Business (Booth: 406, A106)
www.charterbusiness.com
P: 480-216-8266

Charter Business provides business organizations with scalable, tailored, and cost-effective communications solutions, including business Internet, data networking, telephone, video and Fiber optic services. Through a modern, converged fiber-rich network that is backed by 24/7 technical support, Comcast delivers Business Internet, Ethernet, TV and Voice services for cost-effective, simplified communications management.

Commetrex (Booth: 610)
www.commetrex.com
P/F: 770-449-7775 / 770-242-7353

Are you a VoIP service provider or carrier with FoIP problems? If so, Commetrex has the end-to-end solution you need: Smart ATA and BladeWare, both based on Smart FoIP, patent-pending technology from Commetrex. Smart ATA is the industry's only ATA with T.38 that actually has a call-success rate over carrier networks that's on a par with PSTN fax. Smart ATA will allow you to stop saying to your subscribers, "Keep your POTS lines for fax." Instead, they will press send, walk away, and when they return, the fax has been sent … no ifs, ands, or buts. In addition, we're introducing a new product, FaxTap for SIP™. This is the tool you've been waiting for to effectively diagnose your FoIP-network problems since it picks up for FoIP where Wireshark leaves off. Commetrex, the inventor of terminating T.38, is the industry's leading developer of fax technologies. Commetrex serves telecom developers, enterprise-fax OEMs, and VoIP service providers with its array of products, including T.38 Fax Relay, TerminatingT38, Multi-Modal Terminating Fax, BladeWare, and now with Smart FoIP.

CommLogik (Booth: 710)
www.commlogik.com
P/F: 305-677-7888 / 305-677-7889

CommLogik is a value-added distributor of Unified Communications (UC) solutions and related services with a focus on the Americas. Rethink Possible®

Infinite Peripherals (Booth: 233 Mobile Payments Pavilion)
www.ipcprint.com
P/F: 949-222-0300 / 949-222-0375

Infinite Peripherals, Inc. (IPC) is revolutionizing the retail, healthcare, supply chain/warehousing, transportation, ticketing and hospitality industries through its unique Linea-pro and Infinea Tab® products, which maximize the functionality and convenience of Apple®'s iPod® touch, iPhone®, iPad® and iPad mini® by adding a 1D or 2D barcode scanner, magnetic stripe reader and RFID. These mobile point-of-sale devices, demanded by many major retail stores, ticketing venues, hospitals and warehouses, increase productivity and optimize daily workflow. IPC has 20 years of expertise in designing hardware that integrates with PDAs, smartphones, tablets, kiosks, medical equipment and other devices.

Infinitely Virtual (Booth: 438)
www.infinitelyvirtual.com
P/F: 310-746-5683 / 323-645-7054

Inside Infinitely Virtual Infinitely Virtual began with a pilot virtual environment at the One Wilshire data center in downtown Los Angeles, using Hewlett-Packard hardware, offering Windows and Linux virtual dedicated servers -- a cloud computing platform before the term even existed. Over time, additional services -- such as Virtual Terminal Servers, Virtual Office Networks and other customized configurations -- were offered to customers as well. In 2009, Infinitely Virtual moved its primary data center from the One Wilshire collocation site to the Wilshire Annex in Los Angeles. The move enabled the company to continue offering the most technologically sophisticated Virtual Dedicated Servers while maintaining some of the lowest prices in the industry.

Ingate Systems (Meeting Room B114)
www.ingate.com
P/F: 603-883-6569 / 413-460-0414

Ingate Systems develops firewall technology to enable global SIP- and WebRTC-based person-to-person communication to provide the best access for telephony, global real-time and unified person-to-person communication for everyone. Motorola Mobility (Booth: Sponsor Super Wi-Fi)
www.motorola.com
Motorola created the mobile communications industry. We invented most of the protocols and technologies that make mobile communications possible, including the first mobile phone, the first base station, and most everything in between. Today, we are combining that pioneering spirit with Google's vision and commitment to consumers. That's why our phones run on Android, the world's most popular operating system. Android brings the openness that shaped the Internet to the mobile world. That's also why we are the first company to bring smartphone production back to the USA and allow people to customize their own phone design. For the past 80 years, our engineers have thrived on invention, on finding new ways to solve problems. We continue to look for new opportunities to change people's lives for the better through the magic of mobility.

Multi-Tech Systems (Booth: M2M Sponsor)
www.multitech.com
P/F: 763-785-3500 / 763-785-9874

Speedflow Software Solutions includes Class 4 MediaCore Solution, Class 5 CallMax Solution, AccuCore ERP System, Pay-n-Get Transaction Processing System.

Spindle (Booth: 234 Mobile Payments Pavilion)
www.spindle.com
P/F: 480-366-2653 / 480-535-7629

Spindle is an innovator of mobile commerce solutions for financial services providers and consumer-facing merchants of all sizes. Spindle is focused on pioneering new ways for businesses to rapidly integrate mobile payments acceptance and mobile marketing services while empowering location-based merchant discovery, fulfillment and frictionless mobile payments for consumers. Spindle is dedicated to expanding beyond traditional electronic payment boundaries by offering cutting-edge solutions that allow clients, partners, merchants and consumers to take full advantage of the rapidly emerging mobile economy. Spindle has an extensive proprietary intellectual property portfolio -- which include patents pending -- that encompass networks, mobile payments, and security.

Sprint (Meeting Room 3 M2M Pavilion)
www.sprint.com
P/F: 913-221-6912 / 913-221-6912

Sprint is a global leader in machine-to-machine (M2M) technology which powers Usage Based Insurance solutions. Sprint has been recognized for overall customer satisfaction and for high performance in machine-to-machine (M2M) technology: Sprint is the first telecom company to deliver an "A+" Corporate Responsibility Report. (Global Reporting Initiative– Nov. 2012) Sprint was named as one of the most important and influential providers of machine-to-machine (M2M) services for the ninth consecutive year. (Connected World – Oct 2012) Sprint received the #1 machine-to-machine (M2M) scorecard ranking among North American based communication service providers—ranked #2 globally. (Analysys Mason – Nov. 2011) Network Award for Global Wholesale Excellence (ACM-Atlantic– Jan. 2012) Why do so many of the world's leading innovators turn to Sprint? Time and again, partners tell us that one of the main reasons they choose to work with Sprint is our shared passion for bringing new ideas to market. Sprint combines this passion with years of industry experience, an open architecture, and the broadest network portfolio in the industry which includes our 4G network. Over the past ten years, this devotion to technology has led us to build a solutions platform based on openness and collaboration. For you, that means completely open certification standards. It means a tailored solution that's optimal for you.

SVK Software (Booth: 815)
www.svksoftware.com
P: 416-214-3174

SVK Software is pleased to introduce The CDR2Cloud Telecom Billing Solution. CDR2Cloud is a fully hosted billing solution provided on a SaaS model. CDR2Cloud rides on the success of our CDRCat Billing Application but gives Telecom operators a simple way to generate billing and statistical data from their Call Detail Record (CDR) files. CDR2Cloud takes billing one step further by handling an unlimited number of State and Local Taxes, Regulatory Compliance Fees, 911 Service Fees and FUSC/FCC regulatory fees as dictated by current USA Telecom/VoIP Laws. Stop by our booth #815 and see how you can easily generate Invoices to hundreds of customers with a single click of the mouse.

We peer directly with every major carrier in North America and provide a solid network infrastructure to ensure your customers get the best voice quality and availability in the market today. Whether you are servicing SMB or residential, we have the products and services your customers want, including but not limited to: Origination, Global Termination, DIDs (11,600+ rate centers), Toll Free, vFAX, Hosted PBX, SMS, and e911. From our award-winning user portal to our friendly and knowledgeable technical support staff, we have what you need to be successful. Vitelity Communications is an established leader in Wholesale VoIP, vFax, SMS, and PBX hosting services. We peer directly with every major carrier in North America and provide a solid network infrastructure to ensure your customers get the best voice quality and availability in the market today. Whether you are servicing SMB or residential, we have the products and services your customers want, including but not limited to: Origination, Global Termination, DIDs (11,600+ rate centers), Toll Free, vFAX, Hosted PBX, SMS, and e911. From our award-winning user portal to our friendly and knowledgeable technical support staff, we have what you need to be successful.

Vodafone (Booth: 208 M2M Pavilion)
m2m.vodafone.com
P: 650-517-2606

Vodafone Machine-to-Machine (M2M) connects previously isolated machines or devices to the internet, delivering new functionality and enhanced services without the need for human intervention. Supported by over 20 years' experience and 250 dedicated staff, Vodafone's global M2M platform makes it easy for global businesses to centrally manage M2M deployments across multiple territories, with greater control and at a lower cost than previously possible.

VoIP Innovations (Booth: 606)
www.voipinnovations.com
P/F: 877-478-6471 / 412-379-1009

VoIP Innovations is a Wholesale VoIP Services provider, interconnected with the telecommunications industry's top carriers. VoIP Innovations leverages high-volume traffic to negotiate aggressive rates and is committed to providing high quality and low cost Wholesale VoIP services to ITSPs and resellers through our unique industry leading BackOffice, Titanium III. Giving customers easy online access to the industry's largest Wholesale VoIP footprint and number warehouse distinguishes Titanium III as an unmatchable platform. VoIP Innovations does not lock their customers into a long-term contract or ask for an unreasonable minimum. Additionally, they eliminate the need to negotiate and manage separate contracts with multiple vendors. We bring it all together in one complete Wholesale VoIP package.

VoIP Supply (Booth: 720)
www.voipsupply.com
P/F: 800-398-8647 / 716-531-4299

Since 2002, VoIP Supply has been the leading supplier of VoIP equipment and complete VoIP solutions in North America. We are known in the industry as responsive and knowledgeable VoIP product experts. With everything you need for VoIP, VoIP Supply has grown rapidly throughout the years. VoIP Supply is a three-time Inc. 500/5000 honoree, listed by Business First as one of WNY's Most Admired Companies, as well as one of Western New York's Best Places to Work for many consecutive years, including 2012. VoIP Supply is also the first Certified B Corporation in Western New York.

Voipswitch (Booth: 315)
www.voipswitch.com
P/F: 00442081366000 / 00442079002203

Voipswitch is a software platform provider focusing primarily on delivering affordable, complete, next generation services to Internet Telephony Providers (ITSPs). Products include VoipSwitch, a custom modular all-in-one Voice over Internet Protocol (VoIP) management platform licensing solution for resellers and white labelled Mobile VOIP SIP dialers

Voxbone (Booth: 900)
www.voxbone.com
P/F: +3228080000 / +3228080001

Voxbone is the market leader in providing worldwide geographical and toll-free telephone numbers (aka DIDs), enabling cloud communications providers, global carriers, and enterprises to extend the reach of their voice services internationally, rapidly and with minimal costs. The company that specializes in inbound communications delivers access to local telephone networks from more than 50 countries around the world. Voxbone customers benefit from a fully automated and real-time service delivery process through web portal and API. All services are delivered from a single IP-based interconnection. Voxbone is the only company of its kind with own number ranges and a global private VoIP backbone.

Voxvalley Technologies (Booth: 1017)
www.voxvalley.com
P: +91 40 23540882

Voxvalley Technologies, The "TMC 2012 Communications Solutions Product of the Year" award winner, provides VoIP based communication applications and customized solutions to SMBs, Enterprises and VoIP telecommunication providers worldwide. Founded in 2010 by Sajjan Mallik, an early stage VoIP Veteran, the company has engraved its name in the VoIP Communication Industry, as a 'Top Provider of Voice and Communication Solutions' with some of its leading brands like MoSIP, Vox PC, Vox IM, Vox Suite, Vox Con, Vox Bridge, and Vox Switch. Headquartered in Singapore, with its R&D center in Hyderabad, India, Voxvalley is known for its excellence in technology-leveraged products and client-focused services. The company continually demonstrates outstanding achievement in the communication field focusing on high-quality, cost-efficient VoIP products.

WhiteCryption (Booth: 232)
www.cryptanium.com
P/F: 408-616-1600 / 408-616-1626

WhiteCryption is the leading provider of software code protection and white-box cryptography solutions. Its Cryptanium product line is designed to protect applications against hacking.

Whitespace Alliance (Booth: 338 Super Wi-Fi Summit)
www.whitespacealliance.org
P: 404-819-0314

The mission of the Whitespace Alliance is to promote the development, deployment and use of standards based products and services as a means of providing broadband capabilities via WhiteSpace spectrum. By promoting the use of standards, the Alliance will enable companies to provide broadband connectivity at reasonable cost. The WSA will also act as an enabler of the emerging white spaces ecosystem by helping to put in place interoperability, conformance, and compliance testing to make sure that our member stakeholders get the needed information & collaborations to succeed both in the market place and with regulatory requirements. WhiteSpace Alliance will promote the use of IEEE, 3GPP and IETF Standards for use in the WhiteSpaces.

WHOA.com (Booth: 320)
www.whoa.com
P/F: 954-449-4900 / 954-449-9993

WHOA.com is a next-generation secure cloud service provider offering mission-critical infrastructure as a service (IaaS) that features best-in-class products and solutions. Our cloud products include a comprehensive portfolio of best-in-class, integrated applications, platform, and infrastructure products and solutions that enable organizations to have complete control and visibility over security, regulatory compliance, service levels and functionality. The WHOA.com secure network of multiple top tier data centers is strategically located across the country, which prioritizes security, efficiency, and the reliable delivery of business-critical applications. By providing the industry's finest hardware and software coupled with unbeatable levels of high availability connectivity, uptime and security, we represent the pinnacle of quality available in today's cloud infrastructure market.

WCS (Booth: 833 CVx Pavilion)
www.wcs.com
P/F: 888-940-5600 / 954-905-4265

Based in Coral Springs, FL since 1996, WCS is a global, facilities-based carrier that delivers converged voice and data communications services through a patented software-as-a-service supply chain platform called EnterpriseViewTM. Our transformative technology delivers cloud-based and legacy telecom services via a global network of switching hubs, POPs, colocation and network operations centers throughout the United States and Asia. WCS offers SIP trunking, hosted PBX, nationwide local dial tone, conferencing, colocation and a wide variety of managed and unmanaged connectivity products up to 10Gbps. WCS is interconnected to over 130 carrier partners using high performance wireless and wire line backbones and next generation service providers for true "any-to-any" technology internetworking.

Wilson Electronics (Booth: 115 M2M Pavilion)
www.wilsonelectronics.com
P/F: 435-673-5021 / 435-656-2432

About Wilson Electronics, LLC. Wilson Electronics, LLC, a leader in the wireless communications industry for more than 40 years, designs and manufactures the industry's broadest product portfolio of cellular signal boosters, antennas and related components that significantly improve fixed and mobile cellular communication for use in consumer, enterprise and industrial applications worldwide. All Wilson products are designed, manufactured and tested at the company's U.S. headquarters. Wilson signal booster product solutions fully comply with FCC regulations and are FCC type accepted and Industry Canada (IC) certificated.

Windstream (Booth: 820)
www.windstream.com
P/F: 866-445-5882 / 585-340-2507

Windstream (Nasdaq: WIN), a FORTUNE 500 and S&P 500 company, is a leading nationwide provider of advanced network communications, including cloud computing and managed services. We have approximately 14,000 employees across the country, dedicated to delivering smart solutions and personalized service that help our customers solve their business challenges. As an enterprise-focused communications provider, Windstream offers a broad array of advanced business technology solutions, delivering proven results and value to more than 450,000 business customers nationwide. For enterprise data, network, voice or cloud solutions, please visit windstream.com. Windstream also offers industry-leading network strategies to carriers and service providers, enabling them to extend their footprint, strengthen their network infrastructure, increase profitability, and address new business challenges.

xG Technology (Booth: 241 Super Wi-Fi Summit)
www.xgtechnology.com
P/F: 941-953-9035 / 941-954-8595

xG Technology is the developer of xMax, a patented all-IP cognitive radio technology that enables spectrum sharing. xMax can solve the crisis facing the wireless industry caused by data-hungry devices and applications that are straining network capacity. It eliminates the need to acquire scarce and expensive licensed spectrum, thus lowering the total cost of ownership for wireless broadband access. xG's goal is to help wireless broadband network operators make more efficient use of their spectrum allocations and to create new opportunities for innovation in unlicensed spectrum. The xMax cognitive radio system incorporates advanced optimizing technologies that include spectrum sharing, interference mitigation and self-organizing networks. xG offers solutions for numerous industries worldwide, including urban and rural wireless broadband, utilities, defense, emergency response and public safety.

Xively (Booth: 104 M2M Pavilion)
www.xively.com
P/F: 781-897-7822 / 781-998-7792

Xively provides the first public cloud purpose-built for the commercial Internet of Things (IoT). Xively's Platform as a Service (PaaS) helps companies simplify and accelerate development of a new generation of IoT-connected products and solutions by allowing businesses of all sizes to focus on their innovation instead of infrastructure, bring compelling connected offerings to market at significant cost savings, and drive dramatic operational efficiencies.A subsidiary of LogMeIn (NASDAQ:LOGM), Xively is headquartered in Boston's Innovation District.

Xmartek (Booth: 715)
www.xmartek.com
P: 954-385-7280

Value Added Distributor with focus in the Caribbean and Latin America

Xorcom (Booth: 707)
www.xorcom.com
P/F: +972 4 995-1999 / +972 4 995-1988

Xorcom designs and manufactures business telephony solutions that support both traditional PSTN and VoIP communication. All Xorcom products are based on an open source platform, making them easy to install and maintain as well as cost-effective. There are no per user license fees! Xorcom sells its products via a worldwide channel of professional distributors, resellers and system integrators. TwinStar, Xorcom's award-winning high availability solution for IP-PBX, provides full redundancy for the complete system, including telephony interfaces. A sophisticated automatic replication and detection mechanism detects PBX server failure and switches all telephony to the backup server without requiring any human intervention, keeping downtime to an absolute minimum.

Yealink (Booth: 600)
www.yealink.com
P/F: 86-592-570-2000 / 86-592-570-2455

Founded in 2001, Yealink is the Global Top 3 SIP Phone Provider. Yealink focuses on VoIP products characterized by efficient cost-performance, easy installation and affordable prices. Based on solid core technology, Yealink brings benefits to customers through its flexibility and broad interoperability with the major IP-PBX, Softswitch and IMS in the market. Chosen by famous carriers, enterprises and clients from over 80 countries, Yealink delivers SMB and provides diversified customers worldwide with the best options for extending the value of their network communications.

ZYCOO (Booth: 629 Asterisk World Pavilion)
www.zycoo.com
P/F: 0086 28 85337096 806 / 0086 28 85337096 800

ZYCOO is the leading designer and manufacture of VoIP Phone System. Targeting SMBs' communication market, we have developed kinds of IP PBX with various combination of trunks(FXO/FXS/GSM/E1/T1/BRI). With the high technology development, ZYCOO adopts 3G(UMTS)and 4G(LTE) to the new generation phone system-CooVox series with modular design, which attracted world-wide eyeballs. ZYCOO's products and solutions are widely applied in more than 85 countries and regions. Meanwhile, we had developed and produced more than 10 customized embedded boards based on ARM and DSP chips for USA and European customers. We are willing to adopt flexible ways to establish good business partnerships with all of our customers and friends all over the world.

The Best Defense is a Good Offense.

Uncertain Days Ahead?

End Of Life Product?

Drop in Revenues Due To Regulatory Changes?

Price Competition From Incumbents?

Outrageous Costs Per Feature and Per Seat?

Protect your future with the most innovative feature platform on the planet for offering business and residential voice services.

Dynamic Spectrum Sharing Solution

Capitalize on the White Space Opportunity

iconectiv's White Space Database solution enables the best of two worlds: Access to spectrum with superior coverage capabilities and interference free operation, enabling high quality and cost-effective wireless broadband access for a wide range of applications.

iconectiv is an FCC certified White Space database administrator and is a leader in implementing commercial database solutions for communications service providers and regulators worldwide.

iconectiv is the global go-to-market partner for White Space Device manufacturers and a stable long term industry player with over 24 years of experience. With deep database expertise, iconectiv's solutions are used by more than 1,000 operators, regulators and content providers and are currently used to provide services to over 1 billion end users.

Carlson Wireless (Booth: 338 Super Wi-Fi Summit)
www.carlsonwireless.com
P/F: 707-822-7000 / 707-822-7010

Carlson Wireless, the global leader in TV white space technology, has developed the FCC-Certified RuralConnect™. Worldwide white space trials are using this product to provide broadband data to remote areas using UHF TV channels. This device is capable of proving internet connectivity to underserved communities for long-distant, non-line-of-site, hard-to-reach areas.

Hitachi Kokusai Electric (Booth: 340 Super Wi-Fi Summit)
www.hitachi-kokusai.co
P/F: +81-42-322-3111 / +81-42-323-7487

Hitachi Kokusai Electric utilizes its long-cultivated wireless communication technology to provide mobile systems for indoor spaces, local area wireless communication systems, wireless broadband systems, and other communication infrastructures. Moreover, we fuse wireless communication technology with video technology to provide disaster-preventive administration radio systems that protect people's lives against disasters, radio systems for transportation designed for safe and accurate transport control, and various radio communication systems for public/professional use.

iconectiv (Booth: 338 Super Wi-Fi Summit)
www.iconectiv.com
P: 732-699-7192

iconectiv's global database portfolio expanded in 2012, with the FCC certifying our TV WhiteSpace geolocation database, which enables spectrum sharing. Iconectiv is an established database expert, founded in 1984, with solutions used by more than 1,000 operators, regulators and content providers worldwide with deployments supporting over 1 billion end users.

Motorola (Sponsor Super Wi-Fi)
www.motorola.com

Motorola created the mobile communications industry. We invented most of the protocols and technologies that make mobile communications possible, including the first mobile phone, the first base station, and most everything in between. Today, we are combining that pioneering spirit with Google's vision and commitment to consumers. That's why our phones run on Android, the world's most popular operating system. Android brings the openness that shaped the Internet to the mobile world. That's also why we are the first company to bring smartphone production back to the USA and allow people to customize their own phone design. For the past 80 years, our engineers have thrived on invention, on finding new ways to solve problems. We continue to look for new opportunities to change people's lives for the better through the magic of mobility.

Whitespace Alliance (Booth: 338 Super Wi-Fi Summit)
www.whitespacealliance.org
P: 404-819-0314

The mission of the Whitespace Alliance is to promote the development, deployment and use of standards based products and services as a means of providing broadband capabilities via WhiteSpace spectrum. By promoting the use of standards, the Alliance will enable companies to provide broadband connectivity at reasonable cost. The WSA will also act as an enabler of the emerging white spaces ecosystem by helping to put in place interoperability, conformance, and compliance testing to make sure that our member stakeholders get the needed information & collaborations to succeed both in the market place and with regulatory requirements. WhiteSpace Alliance will promote the use of IEEE, 3GPP and IETF Standards for use in the WhiteSpaces.

xG Technology (Booth: 241 Super Wi-Fi Summit)
www.xgtechnology.com
P/F: 941-953-9035 / 941-954-8595

xG Technology is the developer of xMax, a patented all-IP cognitive radio technology that enables spectrum sharing. xMax can solve the crisis facing the wireless industry caused by data-hungry devices and applications that are straining network capacity. It eliminates the need to acquire scarce and expensive licensed spectrum, thus lowering the total cost of ownership for wireless broadband access. xG's goal is to help wireless broadband network operators make more efficient use of their spectrum allocations and to create new opportunities for innovation in unlicensed spectrum. The xMax cognitive radio system incorporates advanced optimizing technologies that include spectrum sharing, interference mitigation and self-organizing networks. xG offers solutions for numerous industries worldwide, including urban and rural wireless broadband, utilities, defense, emergency response and public safety.

Want To Talk with the Organization Enabling Standards-Based Whitespace Solutions Around The World?

Meet with experts from the WhiteSpace Alliance™ at Booth #338

- Discuss recent advances in cognitive radio and spectrum database technologies
- Learn how new pilot programs are bringing broadband to remote areas
- Get updates on emerging standards
- Hear member companies describe solutions they're implementing today

AT&T (Meeting Room 2 M2M Pavilion)
www.att.com
P: 214-801-4091

AT&T Inc. (NYSE:T) is a premier communications holding company and one of the most honored companies in the world. Its subsidiaries and affiliates – AT&T operating companies – are the providers of AT&T services in the United States and internationally. With a powerful array of network resources that includes the nation's fastest and most reliable 4G LTE network, AT&T is a leading provider of wireless, Wi-Fi, high speed Internet, voice and cloud-based services. A leader in mobile Internet, AT&T also offers the best wireless coverage worldwide of any U.S. carrier, offering the most wireless phones that work in the most countries. It also offers advanced TV service with the AT&T U-verse® brand. The company's suite of IP-based business communications services is one of the most advanced in the world. Additional information about AT&T Inc. and the products and services provided by AT&T subsidiaries and affiliates is available at http://www.att.com/aboutus or follow our news on Twitter at @ATT, on Facebook at http://www.facebook.com/att and YouTube at http://www.youtube.com/att

CradlePoint (M2M Sponsor)
www.cradlepoint.com
P/F: 208-424-5054 / 208-429-6852

CradlePoint is the global leader in cloud-managed 3G/4G networking solutions, providing business-grade, secure connectivity to distributed enterprises, small businesses, and mobile customers. Specializing in business continuity, advanced edge routing, machine-to-machine (M2M), and primary connections, CradlePoint's award-winning solutions are purpose built for PCI-compliant networks. CradlePoint is the first to pioneer and fully enable high-speed LTE in its solutions to maximize the potential of the cloud for businesses worldwide. CradlePoint is a privately held company in Boise, Idaho.

Eurotech (Booth: 203 M2M Pavilion)
www.eurotech.com
P/F: 301-490-4007 / 301-490-4582

Eurotech solutions combine hardware, firmware, operating systems, M2M middleware and device cloud services that drive business success. A global leader in connecting distributed devices that make up the Internet of Things, Eurotech collaborates with customers, partners, and integrators to bring rugged, reliable and cost effective data management solutions to market.

verizon

WHEN MACHINES COMMUNICATE,
THE CITY OF CHARLOTTE BENEFITS.

{POWERFUL ANSWERS}

Machine-to-machine (M2M) connectivity helps Charlotte reduce energy consumption. Verizon uses its leading M2M management platform, together with an extensive partner ecosystem, to offer industry-specific M2M solutions that help improve communications, enhance safety and improve energy usage. One Verizon-enabled solution, using real-time data displayed on public kiosks, is helping the city of Charlotte significantly reduce its carbon footprint.

Because the world's biggest challenges deserve even bigger solutions.

Machine-to-machine solutions at verizon.com/connectedmachines

GE (M2M Sponsor)
www.gesoftware.com
P: 925-242-6200

The convergence of the global industrial system, combined with the power of advanced computing, analytics, low-cost sensing and new levels of connectivity has given rise to the Industrial Internet. With its heritage in industrial transformation and a commitment to innovation, GE is working with its partners and customers to develop the software and analytics infrastructure, tools, and services to make the Industrial Internet a reality. At the heart of this effort is GE Software, focused on the goal of developing a new generation of intelligent systems that can harness and automatically analyze the massive amounts of industrial data to help customers optimize assets and business operations. The GE Software Center in California mobilizes nearly 10,000 software professionals around the world within GE's businesses, accelerating innovation, collaboration and commercialization of software and analytics.

Gurtam (Booth: 117 M2M Pavilion)
www.gurtam.com
P: +1 617 963 35 89

Gurtam is an international software company, specializing in the development and distribution of efficient GPS/GLONASS based software solutions, famous for its Wialon family of products. Wialon is an ultimate software solution designed for intelligent GPS tracking, fleet management and various M2M applications. It has more than10 years of successful experience on telematics market and 400 000+ connected units all over the world. Wialon is popular by its extremely broad functionality, bargain-price and more than 500 types of supported GPS tracking devices.

ILS Technology (Booth: 109 M2M Pavilion)
www.ilstechnology.com
P/F: 561-982-9898 / 561-982-9898

ILS Technology provides the world's only ready-to-use, off-the-shelf cloud platform to connect enterprise IT systems to the devices and machines on which businesses depend. ILS Technology solutions are easy to deploy to any device without the need for months of complex programming or development. ILS Technology offers unparalleled security to protect company and customer data and ensure regulatory compliance. ILS Technology is a Telit Company.

Inmarsat (Booth: 215 M2M Pavilion)
www.inmarsat.com
P: +44 207 728 1000

Inmarsat is the leading provider of satellite M2M services. Inmarsat's global network provides ubiquitous, always-on coverage for remote installations, including pipeline SCADA systems, smart meter backhaul, environmental monitoring, ATM connectivity, fleet management and other remote monitoring applications. Through its portfolio of M2M services, Inmarsat offers a cost-effective and reliable alternative to terrestrial cellular networks for connecting these unmanned and remote locations around the globe. Inmarsat is the leading provider of satellite voice, broadband and M2M communication services on land, at sea and in the air.

Iridium (Booth: 101 M2M Pavilion)
www.iridium.com
P/F: 703-287-7423 / 703-287-7350

Iridium is the only mobile voice and data satellite communications network that spans the entire globe. Iridium enables connections between people, organizations and assets to and from anywhere, in real time. Together with its ever-expanding ecosystem of partner companies, Iridium delivers an innovative and rich portfolio of reliable solutions for markets that require truly global communications. The company has a major development program underway for its next-generation network — Iridium NEXT. Iridium Communications Inc. is headquartered in McLean, Va., U.S.A., and its common stock trades on the NASDAQ Global Select Market under the ticker symbol IRDM.

KORE (Booth: 210 M2M Pavilion)
www.koretelematics.com
P/F: 678-389-3146 / 678-389-3147

KORE is the largest wireless network provider specializing on the global M2M market. Pega – The Process of Everything™.

PubNub (Booth: 207 M2M Pavilion)
www.pubnub.com
P: 415-562-7682

The PubNub Real-Time Network provides the cloud infrastructure and key building blocks for real-time applications that scale globally to any device. PubNub enables real-time experiences like live dashboards and streams, collaboration, second screen synchronization, machine-to-machine signaling and more. PubNub's simple API delivers scalable, reliable real-time interactivity across mobile, browser, desktop and server and supports over 50 environments, including iOS, Android and JavaScript. With traffic distributed across 14 datacenters worldwide, PubNub currently powers thousands of real-time apps and streams three million messages per second to over 100 million devices each month.

QNAP (Booth: 216 M2M Pavilion)
www.qnap.com
P/F: 909-595-2782 / 909-595-2782

QNAP, Inc., as its brand promise "Quality Network Appliance Provider", aims to deliver comprehensive offerings of cutting edge network attached storage (NAS) and network video recorder (NVR) solutions featured with ease-of-use, robust operation, large storage capacity, and trustworthy reliability. QNAP integrates technologies and designs to bring forth quality products that effectively improve business efficiency on file sharing, virtualization applications, storage management and surveillance in the business environments, as well as enrich entertainment life for home users with the offering of a fun multimedia center experience. Headquartered in Taipei, QNAP delivers its solutions to the global market with nonstop innovation and passion.

Raco Wireless (M2M Sponsor)
www.racowireless.com
P/F: 513-792-3829 / 513-792-3829

Raco Wireless is committed to providing easy and integrated connected services to the international M2M world. With more combined M2M experience than anyone else in the space, an award-winning set of management tools, and strategic partnerships throughout the globe, we make it easy for our partners to build, deploy and launch their solutions across borders, technologies, and verticals.

Skypatrol (Booth: 209 M2M Pavilion)
www.skypatrol.com
P/F: 800-369-5007 / 786-0331-3333

Skypatrol is a global business leader in GPS tracking and fleet automation solutions, serving the United States, Canada, Central and Latin American, Europe, and Asia. Skypatrol connects its customers to crucial real-time mobile asset and field force intelligence through advanced information platforms delivered as a software-as-a-service (SaaS). With robust manufacturing and distribution channels worldwide, Skypatrol is able to supply a wide variety of tracking products ranging from 2G and 3G cellular network capabilities to dual mode satellite devices, and Skypatrol is now also offering the perfect combination: GPS, Cellular and Satellite network with quad band GSM/GPRS modems; resulting in a truly global solution. Skypatrol's unique consultative approach provides companies with an unmatched competitive edge for managing their mobile assets and people across domestic and global markets. Serving a loyal customer base of automotive dealers, lenders, service fleets, and logistics companies, Skypatrol is unreservedly focused on a customer-centric approach to providing reliable products at reasonable prices.

SkyWave Mobile (M2M Sponsor)
www.skywave.com
P/F: 613-836-6288 / 613-836-1088

SkyWave Mobile Communications is a global provider of satellite communication equipment and airtime services for machine-to-machine (M2M) applications. Using the Inmarsat constellation, our products enable dependable communication, tracking and monitoring of fixed and remote assets anywhere in the world. We do business by partnering with a global network of Solution Providers who integrate our equipment into a broad range of applications for remote management of assets in the transportation, maritime, mining, oil & gas, heavy equipment and utilities sectors. Since 1997, we have designed, manufactured and shipped more than 700,000 terminals to customers in over 75 countries. Users of our products depend on us to increase the productivity and safety of their assets and as an Inmarsat service provider, we are able to offer the reliability they need through our global communications portfolio.

SMARTCom (Booth: 103 M2M Pavilion)
www.smartcomsolutions.com
P/F: 855-762-7851 / 888-762-7819

SMARTCom's reliable network gives you the flexibility to communicate with your machines virtually anywhere. With data plans priced to move, SMARTCom is making wireless 3G control and communication easier and more affordable than ever before. We are proud to announce our partnership with Infergence, our collaborator on the new SMARTCom line of cellular modems and gateways.

Sprint (Meeting Room 3 M2M Pavilion)
www.sprint.com
P/F: 913-221-6912 / 913-221-6912

Sprint M2M Expertise Sprint is a global leader in machine-to-machine (M2M) technology which powers Usage Based Insurance solutions. Sprint has been recognized for overall customer satisfaction and for high performance in machine-to-machine (M2M) technology: Sprint is the first telecom company to deliver an "A+" Corporate Responsibility Report. (Global Reporting Initiative– Nov. 2012) Sprint was named as one of the most important and influential providers of machine-to-machine (M2M) services for the ninth consecutive year. (Connected World – Oct 2012) Sprint received the #1 machine-to-machine (M2M) scorecard ranking among North American

RacoWireless™

Experience the Difference of Connected Control

With the right combination of Team, Tools, and Transport, RacoWireless puts you in control of your M2M solution.

In partnership with multiple world class carriers, as well as through relationships with major hardware manufacturers, RacoWireless offers a complete end-to-end solution for any M2M application. Our private APN delivers data, SMS and voice services from one of the world's largest network operators, and we enhance that connectivity by offering a comprehensive set of device management tools and network services that facilitate the deployment of scalable M2M applications.

The RacoWireless team has more combined M2M experience than any other solutions provider in the industry today. We understand that speed to market and flexibility are critical. Our entire focus is dedicated to supporting M2M applications and we are ready to meet the needs of any application. Our customizable rate plans, flexible connectivity options and feature-rich device management portal empower M2M solution providers with the tools they need to ensure commercial success.

Team

We have assembled the most experienced team in M2M today. We can work with our partners and new solution providers to build effective product offerings.

Tools

Omega Management Suite™ provides customers with a single pane of glass for M2M device management. This simplifies device management and gives you full control of your M2M solution.

Transport

Agreements with key global carriers take all of the complexity out of connectivity. RacoWireless offers 2G/3G/4G coverage to ensure that you have all the data transport that you need in one place.

5480 Creek Road
Cincinnati, OH 45242

O: 800.509.3677
racowireless.com

based communication service providers—ranked #2 globally. (Analysys Mason – Nov. 2011) Network Award for Global Wholesale Excellence (ACM-Atlantic– Jan. 2012) Why do so many of the world's leading innovators turn to Sprint? Time and again, partners tell us that one of the main reasons they choose to work with Sprint is our shared passion for bringing new ideas to market. Sprint combines this passion with years of industry experience, an open architecture, and the broadest network portfolio in the industry which includes our 4G network. Over the past ten years, this devotion to technology has led us to build a solutions platform based on openness and collaboration.

ThingWorx (Booth: 202 M2M Pavilion)
www.thingworx.com
P: 610-594-6200

ThingWorx provides the first platform designed to efficiently build and run the applications of today's connected world. ThingWorx's model-based design and search-based intelligence reduces application development efforts by 10X, minimizing cost, risk and time to market. The ThingWorx platform combines the key functionality of Web 2.0, search, and social collaboration, and applies it to the world of "things," including connected products, machines, sensors, and industrial equipment. Businesses use the ThingWorx platform to rapidly deliver innovative applications and connected solutions across markets ranging from manufacturing, energy, and food, to Machine-to-Machine (M2M) remote monitoring and service, as well as in emerging Internet of Things applications, including smart cities, smart grid, agriculture, and transportation.

Verizon (Meeting Room 4 M2M Pavilion)
www.verizonenterprise.com
P: 877-297-7816

Verizon is enabling the connected world, linking people, information and systems to improve the way we live, work and play. Our technology and business solutions support global mobility and facilitate informed decision-making and sweeping efficiencies by providing critical information across enterprises and geographies. Verizon 4G LTE is engineered to support the apps and devices of the future, while enabling better business outcomes today.

Vodafone (Booth: 208 M2M Pavilion)
m2m.vodafone.com
P: 650-517-2606

Vodafone Machine-to-Machine (M2M) connects previously isolated machines or devices to the internet, delivering new functionality and enhanced services without the need for human intervention. Supported by over 20 years' experience and 250 dedicated staff, Vodafone's global M2M platform makes it easy for global businesses to centrally manage M2M deployments across multiple territories, with greater control and at a lower cost than previously possible.

Wilson Electronics (Booth: 115 M2M Pavilion)
www.wilsonelectronics.com
P/F: 435-673-5021 / 435-656-2432

About Wilson Electronics, LLC. Wilson Electronics, LLC, a leader in the wireless communications industry for more than 40 years, designs and manufactures the industry's broadest product portfolio of cellular signal boosters, antennas and related components that significantly improve fixed and mobile cellular communication for use in consumer, enterprise and industrial applications worldwide. All Wilson products are designed, manufactured and tested at the company's U.S. headquarters. Wilson signal booster product solutions fully comply with FCC regulations and are FCC type accepted and Industry Canada (IC) certificated.

Xively (Booth: 104 M2M Pavilion)

www.csilongwood.com
P/F: 407-260-1011 / 407-260-1033

Compliance Solutions, Inc. provides 200+ telecom companies comprehensive solutions for their compliance and taxation needs. We handle sales tax, corporate income tax, franchise tax, E911 tax, audit support, FCC & PUC reporting, tax rating services, Secretary of State reporting, etc. Our unparalleled service will take your business beyond a stiff process, past mere compliance and into an audit defensible position.

CSF (Booth: 827 CVx Pavilion)
www.csfcorp.com
P: 732-302-0222 ext. 6608

CSF is the leader in toll free number management, provisioning and Least Cost Routing (LCR) software. With over 90 RespOrg and Carrier Customers, our flagship software product 8MS manages over 30% of all toll-free numbers, and makes over 70% of all SMS/800 changes in the industry. We help our customers save time and money by simplifying and automating their toll free provisioning, and reducing their carrier costs through optimized Least Cost Routing.

DSET (Booth: 1032 CVx Pavilion)
www.dset.com
P/F: 770-709-7230 / 770-453-9191

DSET offers solutions that have a proven track record of helping providers of cable, wireless and VoIP service as well as competitive and local exchange carriers, process orders for service in a manner that is both efficient and accurate. This approach results in the ability to more quickly provision services for customers and ultimately offers a faster return on revenue as well as cost-savings gained by the streamlining of related processes. DSET's operational support system tools allow service providers to tackle a variety of challenges associated with the provisioning, activation and configuration of telecom services, as well as the electronic exchange of provisioning information with other telecommunications providers.

PhoenixSoft (Booth: 1027 CVx Pavilion)
www.phoenixsoft.com
P/F: 602-788-6100 / 602-443-1121

PhoenixSoft develops the Cirrus Softswitch for Cloud Based Class 4 and Class 5 SIP-based applications. Turnkey or Hosted solutions for IP PBX, iPhone and Android Softphones, Pinless dialing, Web Portals, Prepaid and Postpaid calling, Wholesale Switching and Integrated Billing. Standalone Softswitch or feature server to legacy platforms. Outstanding customer support since 1985.

Pioneer Telephone (Booth: 829 CVx Pavilion)
www.pioneertelephone.com
P/F: 800-808-9000 / 800-646-5080

Pioneer Telephone is a privately held telecommunications service provider founded in 1989 and headquartered in South Portland, Maine. Since inception we have been helping residential and business customers save money on long distance plans, toll free numbers, phone cards, data/voice solutions and more. As a leader in our industry, we specialize in providing superior service at the lowest prices available.

Telecom Consulting Group (Booth: 927 CVx Pavilion)
www.tcg-partners.com
P/F: 954-781-0884 / 954-449-0515

Telecom Consulting Group is a 23 year old master agency with over 450 nationwide agents. In 2013 TCG is the top direct Comcast partner in the country, top 10 master agency with Windstream and EarthLink and partnered with the number one AT&T master agency. We work very closely with our agents to recommend the appropriate carrier solution for any application. From coaxial cable internet and phone, to Metro E, Hosted VoIP, SIP, internet T1, dynamic T1, DSL, or simple POTS lines we can assist. We have the solution for your opportunity. We have access to over 50 carriers across the country, and as a boutique master agency, we work very hard for our agents.

Telispire (Booth: 929 CVx Pavilion)
www.telispire.com
P/F: 940-397-9603 / 940-397-9628

Telispire, a Mobile Virtual Network Operator (MVNO), will help your company grow revenue and profits by enabling you to add a post pay and/or pre pay wireless (voice, text, 3G/4G data) product to your portfolio of services. Telispire's full turnkey private label solution and powerful back office can be quickly implemented so you can focus on selling and growing revenue. Telispire also provides Mobile Virtual Network Enabling (MVNE) services and can help your organization improve marketing with a variety of marketing services, including but not limited to Social Media Marketing, Retail Store Development, Sales Training, and E-Commerce Service Solutions.

The Conference Group (Booth: 928 CVx Pavilion)
www.conferencegroup.com
P/F: 302-224-8255 / 302-224-8500

With more then a decaed of working with partners, we have developed a reputation as one of the industries most capable and ethical conferencing provider. If you are disillusioned by your providers practice and requirements, contact us to learn more about the Conference Group's way of doing business.

WCS (Booth: 833 CVx Pavilion)
www.wcs.com
P/F: 888-940-5600 / 954-905-4265

Based in Coral Springs, FL since 1996, WCS is a global, facilities-based carrier that delivers converged voice and data communications services through a patented software-as-a-service supply chain platform called EnterpriseViewTM. Our transformative technology delivers cloud-based and legacy telecom services via a global network of switching hubs, POP's, colocation and network operations centers throughout the United States and Asia. WCS offers SIP trunking, hosted PBX, nationwide local dial tone, conferencing, colocation and a wide variety of managed and unmanaged connectivity products up to 10Gbps. WCS is interconnected to over 130 carrier partners using high performance wireless and wire line backbones and next generation service providers for true "any-to-any" technology internetworking. WCS services some of the largest enterprise-class brands in the United States and manages over two million toll-free numbers for its call center and ASP clients. WCS's patented telecom asset and expense lifecycle suite allows our partners and customers to streamline telecom solutions management to lower total cost of ownership.

allworx
A Windstream Company

windstream®
smart solutions. personalized service.

Allworx (Booth: 820)
www.allworx.com
P/F: 866-Allworx / 585-340-2507

Allworx makes it effortless to communicate. All our systems are designed and manufactured with primary attention on Innovation, Value, Reliability, Customer Focus and Quality. The result is that rare and unique combination of products that meets your needs today and tomorrow, works every day without interruption, has capabilities beyond others, lasts for generations and provides cost savings from the very first day. We solve age old communication problems with novel ideas based on the latest and greatest technology.

H2O Overgroup (Booth: 823)
www.overgroup.com
P: 866-470-5502

Since its founding in 2002, Overgroup has grown to be the go-to solution for telecom and cloud companies. Overgroup currently services over 50 di¬fferent telecommunications, wireless and cloud service providers across the United States. Overgroup's, innovative platform, H2O, makes it possible for companies from pre-revenue startups to the large enterprises to grow and succeed. H2O is a SaaS based subscription billing and back-o ffice CRM. This enables companies to innovate and reduce time to market on new off¬erings without the operational constraints associated with the traditional billing platforms. Additionally, we o¬ffer a number of features designed to arm clients with customer and agent facing tools that help them beat competition. Our customers also realize savings by automating traditionally manual processes and reducing the number of systems needed to support their end- users.

Infinitely Virtual (Booth: 438)
www.infinitelyvirtual.com
P/F: 310-746-5683 / 323-645-7054

Infinitely Virtual began with a pilot virtual environment at the One Wilshire data center in downtown Los Angeles, using Hewlett-Packard hardware, offering Windows and Linux virtual dedicated servers -- a cloud computing platform before the term even existed. Over time, additional services -- such as Virtual Terminal Servers, Virtual Office Networks and other customized configurations – were offered to customers as well. In 2009, Infinitely Virtual moved its primary data center from the One Wilshire collocation site to the Wilshire Annex in Los Angeles. The move enabled the company to continue offering the most technologically sophisticated Virtual Dedicated Servers while maintaining some of the lowest prices in the industry. The company has since expanded its capacity with a new data center in Boston, marking a strategic expansion of Infinitely Virtual's business. Today, Infinitely Virtual is a leading provider of high quality and affordable Cloud Server technology, capable of delivering services to any type of business, via terminal servers, SharePoint servers and SQL servers – all based on Cloud Servers. The company was established as a subsidiary of Altay Corporation, and through this partnership, Infinitely Virtual provides customers with expert 24×7 technical support. Infinitely Virtual was named by HostReview (http://bit.ly/ZhHYt7) as the fastest-growing provider in the hosting industry. The company is dedicated to making virtualization accessible to small and midsize businesses. This past October, Infinitely Virtual was ranked number 15 on the Ingram Micro 2013 SMB 500, growing its business with Ingram Micro Inc. (NYSE: IM), the world's largest technology distributor, by more than 1144 percent. The list was celebrates the top 500 fastest-growing Ingram Micro U.S. channel partners focused on small and midsize businesses (SMBs). Corporate responsibility and environmental consciousness are high priorities at Infinitely Virtual.

Transcertain (Booth: 510)
www.transcertain.com
P/F: 719-323-6680 / 888-344-6556
