TMCnet Online Communities are content-generated, information-rich portals designed to position your company as the leading, “go-to” resource for your industry group. With an Online Community you will...

**Be found at the top of search results - Organically**
Most people begin their search queries for purchase information online, so prominent and organic placement is vital in helping your potential customers "see through the clutter" and find your products.

The vast majority of TMCnet Online Communities rank on the first page of search engines like Google and Bing. Organic search ranking is key, as it positions your company as the thought leader in your industry as opposed to a search click ad, which anyone can purchase.

**39% of Search Engine users believe that the companies whose web sites are returned among the top search results are the leaders in their field**

**Integrate and Streamline Your Online Marketing Initiatives**
Today, consumers are getting wiser and pickier about how, where and when they want to receive information. If you’re like most companies, you are going to the Cloud to find innovative ways to reach your target audience and using various SEO, branding, or social initiatives to do so. But how do you bring it all together in a streamlined, cost-effective way?

You need to not only connect to the cloud, but forge connections in it, and Online Communities are the best way to bring all your online marketing initiatives together in one, powerful place.

**Partner with a full-service, integrated global media company**

Get Ads and Promotions to Boost Your Brand
In addition to the “promotional blitz” your site will receive the day it launches, TMC’s creative team will also create promotional ads such as a leaderboard, skyscraper, and ad box to post on TMCnet, promoting your Community, company branding and messaging to TMCnet’s millions of monthly visitors. These ads will also be the only ones visible on your dedicated Community page.

Be in control of your Community, and have options
TMCnet Online Community monthly costs are consistent and transparent. Plus, unlike search ads, you won’t “pay per click” or for each visitor to your site.

You choose your Community term. Community keywords are exclusive and are an extremely lucrative asset to companies who purchase them — as they have first right of renewal. As a result, most of our clients choose to renew their Communities year after year.

You can choose the content, multimedia and social media elements to incorporate into your Community; the possibilities for content are endless.

Measure ROI and see real-time results
Every Community comes with detailed reporting that tracks every page view and click on your site, giving you comprehensive statistics on your Community’s performance.

You will also be provided any lead information your site assets generate by your TMC team.

The whole process was one of the easiest design and implementation events I have ever witnessed. The team was available all hours of the day, could answer questions, give guidance and get things moving quickly which made our lives so much easier. And within days I was seeing real updates.
