3rd-4th: Tuesday 1-2

5th & Teens: Monday 1-2

STEM Mentoring

Tuesdays & Thursdays 3-4

Members will be participating in our second module of our STEM Mentoring Grant, World of Water, where we will participate in fun activities to explore water and discover how we are connected to our local watershed.

Teen Led Program

K-2 Members will be able to participate in a special program designed and ran by some of our teen members.

Monday 3-4

Drawing

Members will be able to learn various drawing techniques and apply them to individual artwork.

All Ages: Tuesday 2-3

Adult Coloring

Members will relax and unwind by participating in coloring projects using various media.

All ages: Thursday 2-3

Summer Brain Gain

Six Weeks of Fun,
Theme-based Activities

Sign Up Now !!

See Tom

Once again, The Boys and Girls Club is offering the National Boys and Girls Club Summer Brain Gain program. The program is open to all members grades K through 5. This year we are implementing six weeks of literacy programming. the Summer Brain Gain: READ introduces your child to new books and engaging activities supportive of literacy skill development. Opportunities for both small

In Summer Brain Gain programs, youth engage in learning through discovery, creative expression and collaborative group work that evolves into a final project or production. Club professionals support and guide participants in a manner more like a mentor or coach, rather than a teacher; therefore, Club members are the programs' drivers and are highly engaged in both learning and fun. Daily, members experience BGCA's four Essential E's of project-based learning practices: Engagement, Expression, Evaluation and Exhibition.
